

Summer 2025

As you may remember, we usually require some summer reading to be completed by each child so that everyone keeps up their skills and improves their reading in the weeks we are not in school. This summer is no different.

Below you will find the requirements for incoming 1st grade. We are asking the children to read as much as possible and log their books. As you finish reading a book, please keep a reading log of the books to submit at the beginning of the school year.

When school starts, please send in to school your Reading log as well as any library reading logs you may do.

In addition to your day to day reading of books you might consider joining the Baltimore County Library Summer Reading program as well.

The theme this year is “Color our World” and you can sign up online with the Baltimore County Library. Barnes and Noble Book Store also has a summer reading program. Keep track of books read and submit to the library according to their requirements.

Time spent reading with your child is time well spent, please take advantage of this precious time in your child’s life as they emerge as avid readers!

Have a Great Summer and Happy Reading!

For Incoming 1st Grade Students

- **We are requiring that all children read or have read at least 20 books or 5 chapter books (or a combination of the two) of their choosing. (50 pages is equivalent to 1 chapter book) Of course you may always complete more.**
